Portfolio

PROFESSIONAL SUMMARY

Full Stack and Backend Software Engineer with hands-on experience building scalable REST APIs, AI-powered applications, and cloud-deployed services. Delivered 5+ production-grade systems using Python, Node.js, FastAPI, and React. Proficient in designing end-to-end software solutions from database modeling and backend architecture to frontend integration and deployment via Docker and AWS. Strong foundation in Data Structures, System Design, and Agile practices with a CGPA of 9.6 in B.Tech AI & Data Science.

EDUCATION

K L University, Vijayawada

B.Tech – Artificial Intelligence and Data Science

2022 – Present

CGPA: 9.6 / 10

EXPERIENCE

Backend & AI Engineering Intern

Aug 2025 – Nov 2025

Thoughtiv – HonestAI Project

- Built and maintained REST APIs in Python/FastAPI following Test-Driven Development (TDD) practices.
- Deployed backend services using Docker and AWS; collaborated in Agile sprints and maintained technical documentation.
- **GitHub:** github.com/Anubothu-Aravind/honestai

Freelance Full Stack & AI Developer

2024 – Present

Independent

- Delivered 5+ production applications across backend, full stack, and AI domains for clients end-to-end.
- Designed 30+ secure REST API endpoints with JWT authentication, RBAC, and cloud deployment (Docker, AWS, Render).

PROJECTS

Pro Talent Connect – Football Talent Platform | *Node.js, Express.js, MongoDB, JWT*

2026

- Architected full backend infrastructure with **50+ REST API endpoints** powering a live talent discovery platform.
- Implemented role-based access control, secure authentication, and scalable player profile management.
- **GitHub:** github.com/LasyWorks/Pro-Talent-Connect | **Live:** protalentconnect.co.in

MK Reddy General Stores – Full Stack Grocery Platform | *Next.js, Express.js, PostgreSQL, Google OAuth*

2025

- Built a production-grade bilingual (English/Telugu) grocery storefront with Next.js App Router frontend and Express REST API backed by PostgreSQL.
- Implemented Google OAuth + email OTP authentication, role-based admin console, cart/checkout, order tracking, invoicing, and promotions management.
- **GitHub:** github.com/LasyWorks/MK-REDDY-GENRAL-STORES

Contexta AI – GenAI Research Paper Assistant | *FastAPI, LangChain, FAISS, Groq API, React*

2024

- Built a full stack RAG-powered AI assistant — React frontend, FastAPI backend — with PDF ingestion, vector search, and context-aware Q&A.
- Designed scalable retrieval architecture with persistent vector storage and real-time document processing pipeline.
- **GitHub:** github.com/Anubothu-Aravind/Contexta-AI

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL

Full Stack / Backend: Node.js, Express.js, FastAPI, Flask, Django, REST APIs, JWT, React.js

AI / ML: LangChain, FAISS, RAG Pipelines, LLM Integration, Groq API, NLP, Prompt Engineering

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: Docker, AWS, GitHub Actions, CI/CD, Linux, Render, Vercel

Tools: Git, GitHub, Postman, VS Code, JIRA, Agile, System Design

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Cloud Practitioner, Salesforce AI Associate, Python & Problem Solving (HackerRank)
- Technical Lead – Intelligentsia Club: organized AI/backend workshops with 100+ participants; mentored hackathon teams
