Summary

- Driven 3rd-year AI & Data Science student with a robust foundation in AI/ML, Data Science, and DevOps, committed to crafting innovative solutions.
- AWS Certified Cloud Practitioner with hands-on experience in web development and database management
- Committed to continuous learning and contributing to innovative technological solutions

Skills

- **Programming:** Python, Java, C
- **Web Development:** Django, Flask, Streamlit, HTML/CSS, JavaScript
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, AWS, Salesforce
- **Languages:** Telugu, English (Fluent), Hindi, Kannada (Beginner)

Certifications

- **Salesforce AI Associate Certification** - Salesforce, 2024
- **AWS Certified Cloud Practitioner** - Amazon Web Services, 2024
- **Python (CEPYTIIN)** - IBM, 2023
- Python (Basic) - HackerRank, 2023
- Problem Solving (Basic) - HackerRank, 2023

Education

K L University – (Aug 2022 – present)

Bachelor of Technology in Artificial Intelligence and Data Science, Vijayawada

- CGPA: 9.6
- Relevant Coursework: Machine Learning, Data Structures, Web Development
- Specialization: DevOps

Shri Ram Global School, Bangalore – (Aug 2020 – June 2022)

Class 12th, PCM – CS

- Percentage: 72 %

Narayana E-Techno School – (2020/04)

Class 10th, Tenali

- percentage : 98 %

Projects

Emotion Classification using Audio (Aug 2024 — Nov 2024)

- Developed a model using Hugging Face Transformers to detect human emotions (e.g., angry, happy, sad) based on live audio input.
- Created an interactive interface for emotion detection using Streamlit for real-time audio analysis.

Pet Adoption Using Django (Aug 2023 — Nov 2023)

- Designed and deployed a scalable Django web application to simplify the pet adoption process by connecting seekers with shelters.
- Focused on promoting animal welfare by making the adoption process user-friendly and efficient.

Flask-based Task Management Application (Apr 2023 — Jul 2023)

- Created a responsive web application using Flask and SQLAlchemy
- Implemented CRUD operations for task management with user authentication
- Utilized Git for version control and collaborative development
- Deployed the application on Heroku for easy access and testing

Internships

Cloud Computing Intern - AICTE & AWS Academy (Jan 2024 — Mar 2024)

- Completed a comprehensive 10-week virtual internship on AWS cloud foundations
- Gained practical experience with core AWS services (EC2, S3, RDS), developed scalable apps, and completed collaborative cloud migration projects.
- Developed and deployed scalable web applications using AWS Elastic Beanstalk

Data Science Intern - Bharat Intern (Oct 2023 — Nov 2023)

- Conducted exploratory data analysis on large datasets using Python and Pandas
- Developed machine learning models for predictive analytics using Scikit-learn
- Visualized complex data patterns using Matplotlib and Seaborn
- Presented findings and insights to senior data scientists, enhancing decision-making processes

Extra-curricular Activities

- **Director of Technology, Kognitiv Club**
Led a team of 15+ in organizing workshops, hackathons, and technical events.
- **Hackathon Participant**
Created full-stack applications under time constraints, honing problem-solving skills.
- **Social Intern**
Conducted a 10-day tribal welfare awareness program, building empathy and communication skills.
